Chennai, India | +91 7548892596 | Karishmakp1997@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience building scalable web applications using React.js, Node.js, Python (Django/DRF), and RESTful APIs, currently contributing to live client projects as a Junior Software Developer. Delivered 10+ full-stack projects spanning frontend, backend, and database integration, including JWT-based authentication and MySQL/MongoDB/PostgreSQL data layers, with applied experience integrating Generative AI (OpenAI/Gemini) into production features.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js, Vite, Responsive Design, Cross-browser Compatibility

Backend: Node.js, Python, Flask, Django, Django REST Framework (DRF), REST API Development, JWT Authentication, Middleware

Databases: MySQL, MongoDB, SQLite, PostgreSQL

AI & Generative AI: OpenAI/Gemini API Integration, Prompt Engineering, AI Chatbot Development, AI-assisted Coding & Debugging · Generative AI & LLM Fundamentals (Familiar) · RAG, LangChain, Vector DBs (Basics)

Tools & Practices: Git, GitHub, Vercel, Render, VS Code, Postman, npm, Component-based Architecture, MVC Pattern, Agile Development, Debugging, API Integration

CERTIFICATIONS & TRAINING

- Certificate in Python Fullstack — Vetri Technology Solutions (Aug 2025 – Jun 2026)
- ISO 9001:2015 Certified (Grade A, 87%) — hands-on training in HTML, CSS, JavaScript, React.js, Node.js, Python, Flask, Django, and REST API development across 10+ major projects and 100+ mini-projects.

PROFESSIONAL EXPERIENCE

Junior Software Developer (Traineeship) | Vetri Technology Solutions (VTS)

Jun 2026 – Present

- Contributing as a Junior Software Developer on live client projects, building and maintaining full-stack features using React.js, Django REST Framework, and PostgreSQL.
- Collaborating with cross-functional teams to translate client requirements into scalable, production-ready application modules.
- Applying Agile development practices and Git-based version control to deliver client-facing features within sprint timelines.

Full Stack Developer Intern | Vetri Technology Solutions (VTS)

Jan 2026 – May 2026

- Developed and deployed 10+ full-stack web applications using React.js, Django, and DRF, building RESTful APIs with JWT authentication and MySQL/MongoDB integration.
- Integrated OpenAI/Gemini APIs with prompt engineering to build an AI-powered chatbot feature, improving response accuracy and user experience.
- Used AI-assisted coding tools to accelerate debugging and refactoring, working independently in an Agile team environment with Git/GitHub.

SEO Analyst | Resbee Infotech

Aug 2021 – Jan 2022

- Conducted keyword research and generated weekly performance reports with actionable, data-driven insights.
- Worked cooperatively with cross-functional teams to execute digital marketing strategies, contributing to increased organic search traffic.

KEY PROJECTS

Vetri AI Coach – Government Exam Preparation Platform — React (Vite), Django REST Framework, PostgreSQL

- Full-stack exam prep platform covering exam discovery, eligibility checking, study materials, mock tests, and performance tracking, with a soft-gated login flow and an AI-powered coach chatbot; deployed on Vercel (frontend) and Render (backend).
vetri-ai-coach.vercel.app

Glowify – Cosmetic E-Commerce Store — Python, Django, HTML, CSS

- Full stack cosmetic store with product listing, banner management, and dynamic Django-template pages; implemented user authentication and product filtering, deployed on Render with WhiteNoise.

VetriFresh – Online Grocery Store — Python, Django, HTML, CSS, OpenAI/Gemini API

- Full stack grocery e-commerce platform inspired by Blinkit's UI/UX, with product management, cart, orders, blog, accounts, and newsletter modules, plus an integrated AI chatbot; deployed on Render with Unicorn, WhiteNoise, and environment-based configuration.

EDUCATION

MBA – Human Resources & Operations, Noorul Islam University

2021 | CGPA: 8.6

B.E – Electronics & Communication Engineering, Holycross Engineering College

2019 | CGPA: 7.2
